THE BENEFIT OF PHYSICAL EDUCATION AND SPORTS

Research shows that sports participation in schools is not only associated with higher levels of wellbeing for young people but is also key to improving focus, self-discipline and brain development.

Physical Education is a key part of the curriculum in our school and is something that I am keen for all children to have the opportunity to explore, enjoy and take part in.

As you will hopefully have seen from Twitter (X), the school website and our monthly newsletter, Brough Primary has recently been taking part in a wide range of sporting events both in school as well as tournaments outside of the normal school day.

We want to be able to share more details and photographs of the children's achievements and this is therefore the first of our new Sports Review updates that we will be sending out every half term.

We hope you enjoy seeing what the children have been doing!

A huge well done to the children and a big thank you for representing our school in the best way possible and gaining a 4th place finish.

YEAR 6 BOYS HUMBERSIDE CUP 1ST ROUND – PENSHURST PRIMARY 19.01.24

Well done to our Y6 Boys who competed in our First Round victory over Penshurst Primary School in the Humberside Cup on Friday afternoon.

Playing on a really tricky pitch due to the recent weather conditions, the boys fell behind on two separate occasions throughout the game but still managed to win 4-3 thanks to a last minute winner!

Their attitude to never give up won the game for us and they earned the right to be jubilant at the final whistle! Well done, boys. Onto the next round we go!
